

**Ming** joined the Zoltek Commercial Real Estate Services team in 2025. Ming began her real estate career at Weichert Commercial Brokerage in 2024. She represented various clients and completed several transactions involving Retail, Industrial and Medical offices.

Prior to joining real estate, Ming was an established construction professional for 17 years in engineering, site management, as well as construction cost and schedule analysis. She is seasoned in catering to clients' dynamic needs. With her analytical approach, she evaluates specific needs, explores options, and delivers the most efficient solution to her clients.

Ming has graduated with a bachelor's degree in civil engineering that provides her with a solid foundation in building structure and construction requirements for various types of commercial space.
